Circular No.8/2020-21

Dear Parents

Greetings!

Hope everyone is safe at home. Keeping in view the extension of the lock down period, We have decided to start up with online classes for grade 8 to 10 to assist the students on the new syllabus. So we request you follow few guidelines for maintaining a live classroom feel during the online teaching process.

1. Please download zoom cloud meetings app from play store for a video conference with the respective teacher .
2. Teacher will send you an invite in the group after downloading the app clicking on the invite which will enable you to connect to the room.
3. Keep the child in a calm room with the device to ensure better learning.
4. Students who do not have their textbooks need not worry the link for that particular class ,subject and lessons will be sent to you by us.
5. More instructions about the class how it will be taken will be discussed with the child through a mock call. Any queries you can reach us

Hope you will support us in the process for a better learning prospective.

Thank you.
