Circular No.2/2020-21

Dear parents,

Greetings!

Pavithra International school management warmly welcomes you to the Parent Orientation Programme on 8th Feb 2020, on 10 am to 12pm

Desirous of developing an Edison like zeal and determination in the educands of our organization. We have heralded the research based studio 'chrysalis' for our pre-primary and primary classes. Your child is now a key person. It ensures giving space for each and every individual child in expressing themselves. You being the facilitators of your wards home study, will be enthusiastic to know the stress free programme. This includes healthy parenting, sharing the concerns, the challenges and to create awareness about teaching methodology. This will benefit both parents and school staff to establish better interaction and ensure care of the children education with a common approach.

We are looking forward for your esteemed presence with great pleasure.

Let the child blossom!
